"When dealing with people remember you are not dealing with creatures of logic, but creatures of emotion."

From HOD'S Desk

It gives me immense pride and pleasure to lead the electrical and electronics engineering department of this esteemed institution.

The department encourages students to participate in cultural and co-curricular activities, sports, seminars, paper presentation etc. keeping in mind overall growth of the students.

To fill the gap between industry and the academics providing industrial visits and internships to the students are regular practice of the department, which assist the student in smooth transition from academic life to work life.

I wish the students make best use of the facilities provided by the department and work towards achieving excellence in the chosen field.

Heard this about the “Girls education”?

Education for every human being is the essential component, Without education, Man is placed into the category of animal has Gandhiji has rightly said that if “Educate a man you educate an individual But if you educate a women you educate whole society!”. Girls are the pillars of any country or economy thus girl education should be made essential, necessary compulsory. Girls should not be forced to get married against get higher and higher education. role of girl should be more important in the world. than males as girls are the only one who can make the world and can destroy too..

There was a time when people thought that it was not necessary to educate girls. now, we have begun to realize that girls education is essential. the modern age is the age of awaking of girls. They are trying to compete with men in all spheres of life.

There are many people who opposes girls education, they say that the proper sphere of girls is the home. So, they argue that the money spent on girls education is wasted this view is so wrong because girls education can bring about a silent resolution on the society

There is several advantages of girls education. Grown up educated girls can play an important role in the development of their country

They can share the Burden of men in the different walk of life. when girls are well educated, not forced to marry during childhood, they will be able to save the society as writers, educators, teachers, lawyers, doctors, administrators, politicians, scientists, and much more

They can work at Banks, Hospitals, Government offices and large Businesses. the can play an important role during war.

Education is a boon to girls in this age if economic crisis. gone are the days of plenty and prosperity. now a days it is difficult for the people of the middle class to make both can add to the income of their husbands. if a woman is educated, she can earn a living after the death of her husband.

Girls education is necessary for making the homes happy place. A man’s life blossom if he is blessed with well educated woman as wife and mother. educated girls can brighten the future of their country by the good upbringing of their children education gives a woman freedom of thought

If Broadens her outlook and makes her ware of her duties and responsibilities. Education empower a grown up girl to become economically independent. they will be able to stand up for their rights. Girls have all the rights to get educated.

Empowerment of girls and women is necessary to fight against the problem of gender inequality

Education of rural girls is equally important the rural girls are not getting ample opportunity for education. education of these girls would have positive impact on both economy and society. Many people say that girls should not be go in for degrees. They are wrong . Because girls have already proved their worth in all walks of life there is no reason why girls should not get the same kind of education as men. But they should not neglect their duties at the home. So, girls must have knowledge of domestic science and child psychology

Influence of Public Speaking on society

Public speaking is an act of performing information speech to an audience, usually done before a large audience in school/colleges, workplace also in personal lives. public speaking is a must for courses like science field, political science, business management, teaching sector for their future jobs and careers. Here are some of the examples who have used public speaking armory for bringing change in socialism.

BENEFITS OF PUBLIC SPEAKING

As You Know Communication is the Backbone of Society which allows us to form Connection, Influence decisions making and motivate a person to ideal his views on a Particular point

Firstly Public Speaking improves Confidence.

- ☐ It Helps in Improving Communication skills.
- ☐ It teaches you to Outflow Fear in Public.

FOR STUDENTS IN THEIR PROFESSIONAL AREA

- ☐ It Trains them for Job or Academic interviews, Presentation Skills also Conduced into it.
- ☐ It Helps Students to Develop Leadership Skills in them.
- ☐ Teaching, Journalist, News-Anchor, Marketing Employees are the allies of Public Speaking.

“IF YOU CAN SPEAK, YOU CAN INFLUENCE, IF YOU CAN INFLUENCE, YOU CAN CHANGE LIVES”
